

## Charge Station Operating Instructions

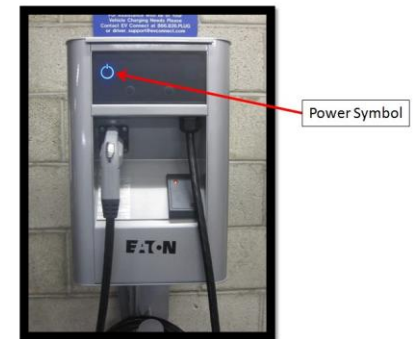

**Step 1:** If the blue power symbol on the charge station is flashing, this indicates that the station is ready to use.

**Step 2:** Swipe your RFID key fob over the RFID reader to authorize a charging session.

**Step 3:** The blue power symbol will stop flashing after a few seconds, indicating you are ready to charge.

**Step 4:** Plug the charging cord into your vehicle.

**Step 5:** Your battery is charging when the blue battery symbol is not flashing.

**Step 6:** Once you are finished charging, return the charging cord to the unit receptacle. The charging session will end after 30 seconds.
